

# Air Quality Situation Report

Edmonton Folk Music Festival ·  
Gallagher Park

Fri, Jul 31, 2026 · 2:42 PM MDT  
For more information, contact Gary Redmond, ACA Executive Director at 780.935.4279

## Air Quality Health Index (AQHI) — Edmonton

# 4.0

Current AQHI at Edmonton McCauley (1.66 km from venue)  
Forecast Fri 5:00 PM: **3.6**

| Health Risk   | AQHI | At-Risk Population                                                                                | General Population                                                                                                     |
|---------------|------|---------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| Moderate Risk | 4.0  | Consider reducing or rescheduling strenuous activities outdoors if you are experiencing symptoms. | No need to modify your usual outdoor activities unless you experience symptoms such as coughing and throat irritation. |

No active Environment Canada weather alerts for the venue.

## Environmental Intelligence Summary

- At Edmonton Folk Music Festival, temperature is 25.2°C and feels near 27.7°C. Winds are 4 km/h from SE, gusting near 17 km/h.
- The nearest current AQHI is 4 at Edmonton McCauley, 1.7 km from the venue.
- A gridded AQHI estimate blending official and community sensors (confidence: High) puts the area near 2.
- The nearest air monitoring station (Edmonton McCauley, 1.7 km) reports fine particulate matter (PM2.5) at 16.5 µg/m³.
- An on-site community sensor ('ACA\_CloverdaleCL', 0.5 km) reads 16.9 µg/m³ PM2.5.
- Back-trajectory modeling (HRDPS wind fields, 6 h lookback) indicates the air currently at the venue traveled from the vicinity of a point 51.1 km to the S, i.e. arriving from the S.
- The nearest active fire detection (NASA FIRMS – VIIRS, last 2026-07-31) is 6.2 km E of the venue. The modeled back-trajectory passes within 6.2 km of this fire, making smoke transport to the venue plausible based on wind-field modeling.
- The AQHI forecast for Fri 5:00 PM is 4.
- Overall operational environmental risk is MODERATE.

## Recommendations

- Environment Canada AQHI guidance — general population: No need to modify your usual outdoor activities unless you experience symptoms such as coughing and throat irritation.
- Environment Canada AQHI guidance — at-risk populations: Consider reducing or rescheduling strenuous activities outdoors if you are experiencing symptoms.

## Hazard Snapshot — Overall Risk: Moderate Risk
